Field Lights – Leighton Electric has been awarded the contract for the lights at Centennial Park. Field 1 and the west side of Field 2 will have lighting. The board has agreed to investigate the costing to light the east side of Field 2 and will make a decision once they have all information about contributing to the installation.

Emails – The club will look at a general email for members to communicate with and will ask E2E if they offer this service from their web hosting.

Jim to follow up with Alex Fletcher regarding the student who did not pass the referee exam.
